Manual harvest o small perforated crates. Reception with immediate destemming and crushing. Fermentation in stainless steel tanks, with tanning under a controlled temperature of around 23°C, with prolonged maceration.
Maturation in stainless steel tanks until the bottling.

TASTING
In Quinta do Sobreiro de Cima we have selected the best grapes from the Cabernet Sauvignon variety in order to create this varietal wine. With a ruby hue, intense aromas of red fruits, like plum and cherry, with a touch of ripe pepper, typical of this grape variety. In the palate it is intense and persistent, balanced with a slight spicy sensation. This wine did not undergo any maturation in wood, so it could preserve the character of the grape variety.

TRY IT WITH...
Excellent with roasted meat dishes, sausages or soft cheeses.
Serve at a temperature of 16°C.
