ALTITUDE 420 m
SOIL Sandy
EXPOSURE Predominantly from south

VINIFICATION AND MATURATION

At Quinta do Sobreiro de Cima we select the best grapes from the Gewurztraminer grape variety to create this monovarietal blend. This white wine which is the second part of the original blend, fermented and aged in French oak in order to become more complex and gastronomic. This way we can find in this pale yellow coloured wine, a complex aroma by the involvement of fruit, honey and toasted notes. In the mouth it reveals unctuousness, acidity and intensity ending with some persistence.

PAIRINGS

Great with more intense fish dishes like oven-roasted codfish, cured goat cheese or white meats. Serve at a temperature 12°C.

ANALYTIC DATA

Alcohol 13%
pH 3,15
Total Acidity 6 g/L
Total Sugar 0,68 g/L

EAN 5601022001895

PACKAGING

Premium Cardboard Box 2 bottles
